Frequency Response:	50Hz/20Khz
Size:	574 x 355 x 90 mm
Weight:	Net 7.9 kg

This small and compact speaker can be used both as a surround system for big rooms or as screen system for smaller ones. Its narrow depth allows it to be embedded inside the wall to achieve a better looking result. This model's performance, together with its state-of-the-art European components for both bass and treble that deliver a linear response up to 20Kz, make it a superb entry level to the Aurea family. It features a high resistance polyurea coating. There is an option of metallic coverings or fabric grills painted in the customer color choice.
