

The logo features the word "Jamo" in a large, bold, sans-serif font, with a registered trademark symbol (®) to its upper right. Below it, the words "CONCERT SERIES" are written in a smaller, all-caps, spaced-out sans-serif font. The background consists of a series of white, concentric, wavy lines on a light gray gradient, creating a sense of depth and movement. A horizontal band of small white dots runs across the bottom of the image.

CONCERT SERIES

FORM + FUNCTION = HARMONY

For listeners who desire the perfect combination of form and function, the **JAMO CONCERT SERIES** speakers provide pure, natural sound while blending harmoniously into any space.

### **DANISH DESIGN**

The aesthetic of Jamo's flagship Concert Series was envisioned by Kieron Dunk, world-renowned industrial designer. The simple, elegant lines allow each speaker to blend seamlessly into your space and become an extension of your life.

**Jamo**<sup>®</sup>  
CONCERT SERIES

### **SONIC SIMPLICITY**

Concert Series' beautiful exteriors house high-performance drivers, acoustically tuned to provide open, transparent playback of movies and music. Warm, natural sound is delivered throughout the environment, enveloping the listener.

A modern living room with a large window overlooking a city skyline. In the foreground, a tall black Jamo speaker stands on a stone wall. In the center, a white sectional sofa is positioned next to a black coffee table with a grid pattern. A floor lamp with a black shade is visible behind the sofa. The text "Jamo CONCERT SERIES" is in the top left, and "BEAUTIFULLY BUILT" with a descriptive paragraph is on the right.

**Jamo**<sup>®</sup>  
CONCERT SERIES

## BEAUTIFULLY BUILT

High quality cabinetry, designer finishes and advanced technologies combine to create gorgeous furniture whose exceptional acoustics are surpassed only by their beauty. Satin painted MDF baffles, polished chrome logos, satin aluminum trim rings, centre plugs and stabilizer feet make the Concert Series aesthetically elegant, while providing exceptional acoustic performance.

## FEATURE FILLED

**Hybrid Composition Conical Cones (HCCC)** provide the stiffness and strength of aluminum or titanium with the transient response and smoothness of wood fibre.

Woofer and midrange drivers feature

**Long Displacement Surround (LDS)** for cleaner, tighter and deeper bass.

Improved **Anti-Diffraction WaveGuide (ADW)**

technology produces more immersive and impactful listening outside of the sweet spot.

Silk dome tweeter diaphragms with **Tweeter Distortion Reduction (TDR)** provide lower distortion and enable greater high frequency extension.
